Introduction to Provider Bridge

BACKGROUND & GOALS

- + Made possible by grant funding through the Health Resources and Services Administration (HRSA), the U.S. Department of Health and Human Services (HHS), and the Coronavirus Aid, Relief, and Economic Security (CARES) Act.
- + Goal 1: Establish communication pathways to facilitate the use of telehealth technologies in response to and preparation for health care emergencies such as COVID-19
- + Goal 2: Develop a new technology platform to streamline the process for mobilizing health care professionals during public health emergencies
- + Goal 3: Expand the technology platform to encompass other health care professionals
- + Goal 4: Provide education and outreach to foster utilization and recognition of Provider Bridge as a resource for responding to public health emergencies

Provider Bridge is powered by data and resources from organizations across the U.S. health care system.

TECHNICAL OVERVIEW

- + Cloud hosted for scalability, portability and security purposes.
- + Not a new 'centralized' database. Records are queried only when requested using APIs.
- + Not a new pathway for licensure or privileging.
- + Intended as a rapid certification of existing licensure and specialty information (when applicable).
- + Certificate-based documents used for license verification.
