Webinar Tips and Notes

- Your phone &/or computer microphone has been muted.
- If we do not reach your question, please contact your regional TRC. There may be delays in response time:
<https://telehealthresourcecenter.org/contact-us/>
- Please fill out the post-webinar survey.
- Closed Captioning is available.
- Please submit your questions using the Q&A function.
- The webinar is being **recorded**.
- Recordings will be posted to our YouTube Channel:
<https://www.youtube.com/c/nctrc>

Connecting Closer to Home:

Why Broadband and Telehealth Need Each Other

Jordan Berg

Principal Investigator

Telehealth Technology Assessment Center

jjberg@anthc.org

Presented for the
NCTRC Webinar Series

August 15, 2024

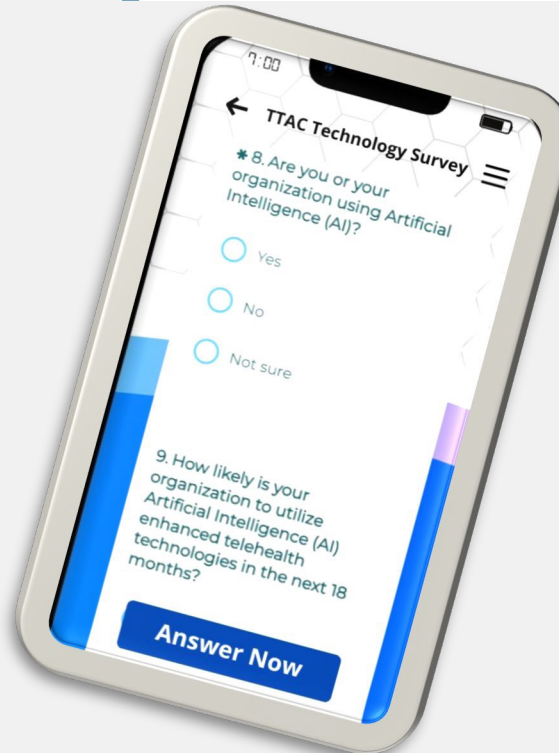

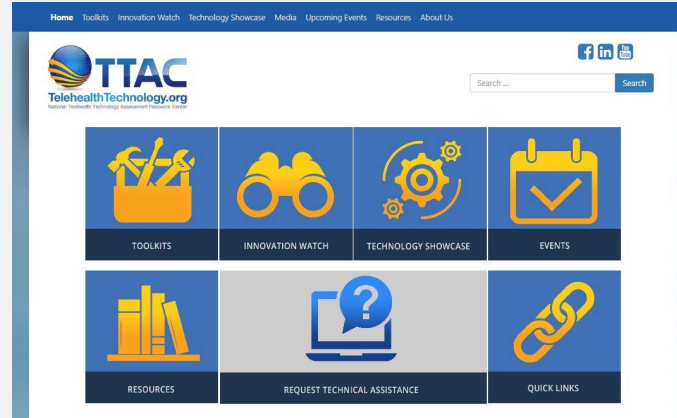

Who is TTAC?

- TTAC is federally funded through the **Office for the Advancement of Telehealth (OAT)**
- TTAC provides Technology Assessment services to the 12 regional TRCs as well as the other national TRC.

What do we do?

- Individual and Organizational Technical Assistance
- Website Resources:
 - Innovation Watch
 - Technology Toolkits
- Special Projects:
 - Telehealth Technology Survey
 - Telehealth Broadband Pilot Program
- Telehealth Technology Showcase

Overview

- **What is Broadband**
 - **FCC Definition**
 - **Types of Broadband Connections**
- **Importance of Broadband in Digital Health**
- **State of Broadband in Digital Health**
- **Measuring the Gaps**
 - **Common Concerns**
 - **Broadband Mapping**
 - **Telehealth Broadband Pilot Program**
- **Resources**
- **Questions**

What is Broadband?

“Internet access that is **always on** and **faster** than the traditional dial-up access”
(US National Broadband Plan, 2009)

Download Speed

FCC Broadband Definitions as of March 14, 2024

Upload Speed

<https://docs.fcc.gov/public/attachments/DOC-401205A1.pdf>

What is Broadband?

Types of Broadband Connections:

- Fiber-Optic
 - Very fast speeds
 - Symmetrical
 - Limited availability
- Cable
 - Fast speeds
 - Non-symmetrical
 - Good availability
- DSL
 - Variable speeds
 - Affordable
 - Non-symmetrical
 - Good availability

Image source: <https://broadbandnow.com/guides/dsl-vs-cable-vs-fiber>

What is Broadband?

Other Broadband Connections:

- Satellite
 - Useful for rural locations
 - Issues with latency
 - Types of satellite networks
 - GEO
 - LEO
- Cellular
 - Accessible through mobile devices
 - Highly variable

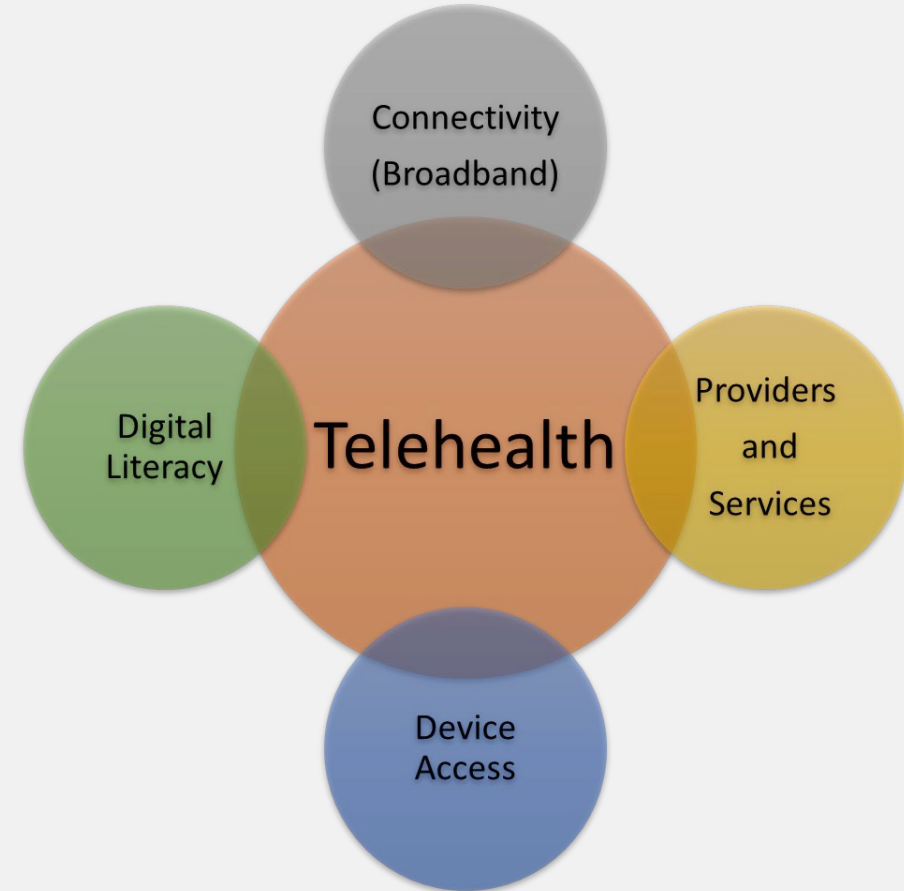

4G

5G

Importance of Broadband in Digital Health

Fast and stable Internet:

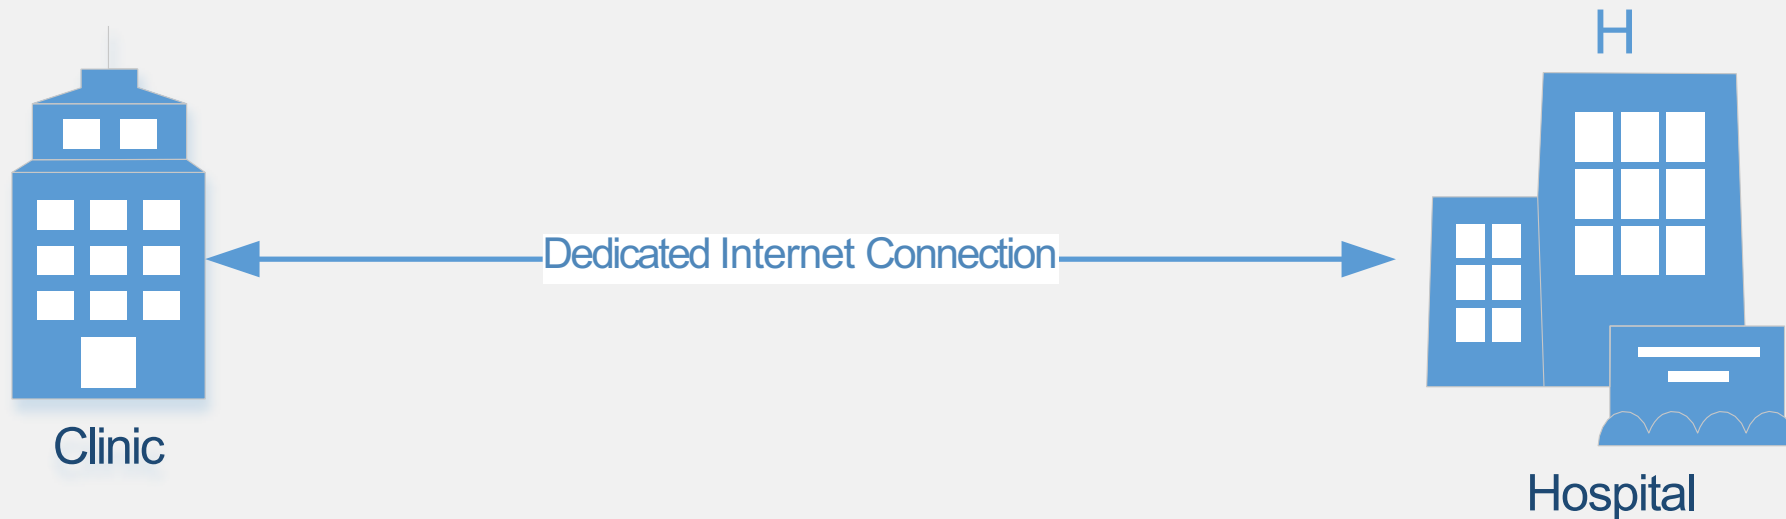

- Supports care **when** it is needed
- Enables care **where** it is needed
- Is a **pre-requisite of telehealth**
- Improves **access**
- **Enhances care**

Importance of Broadband in Digital Health cont.

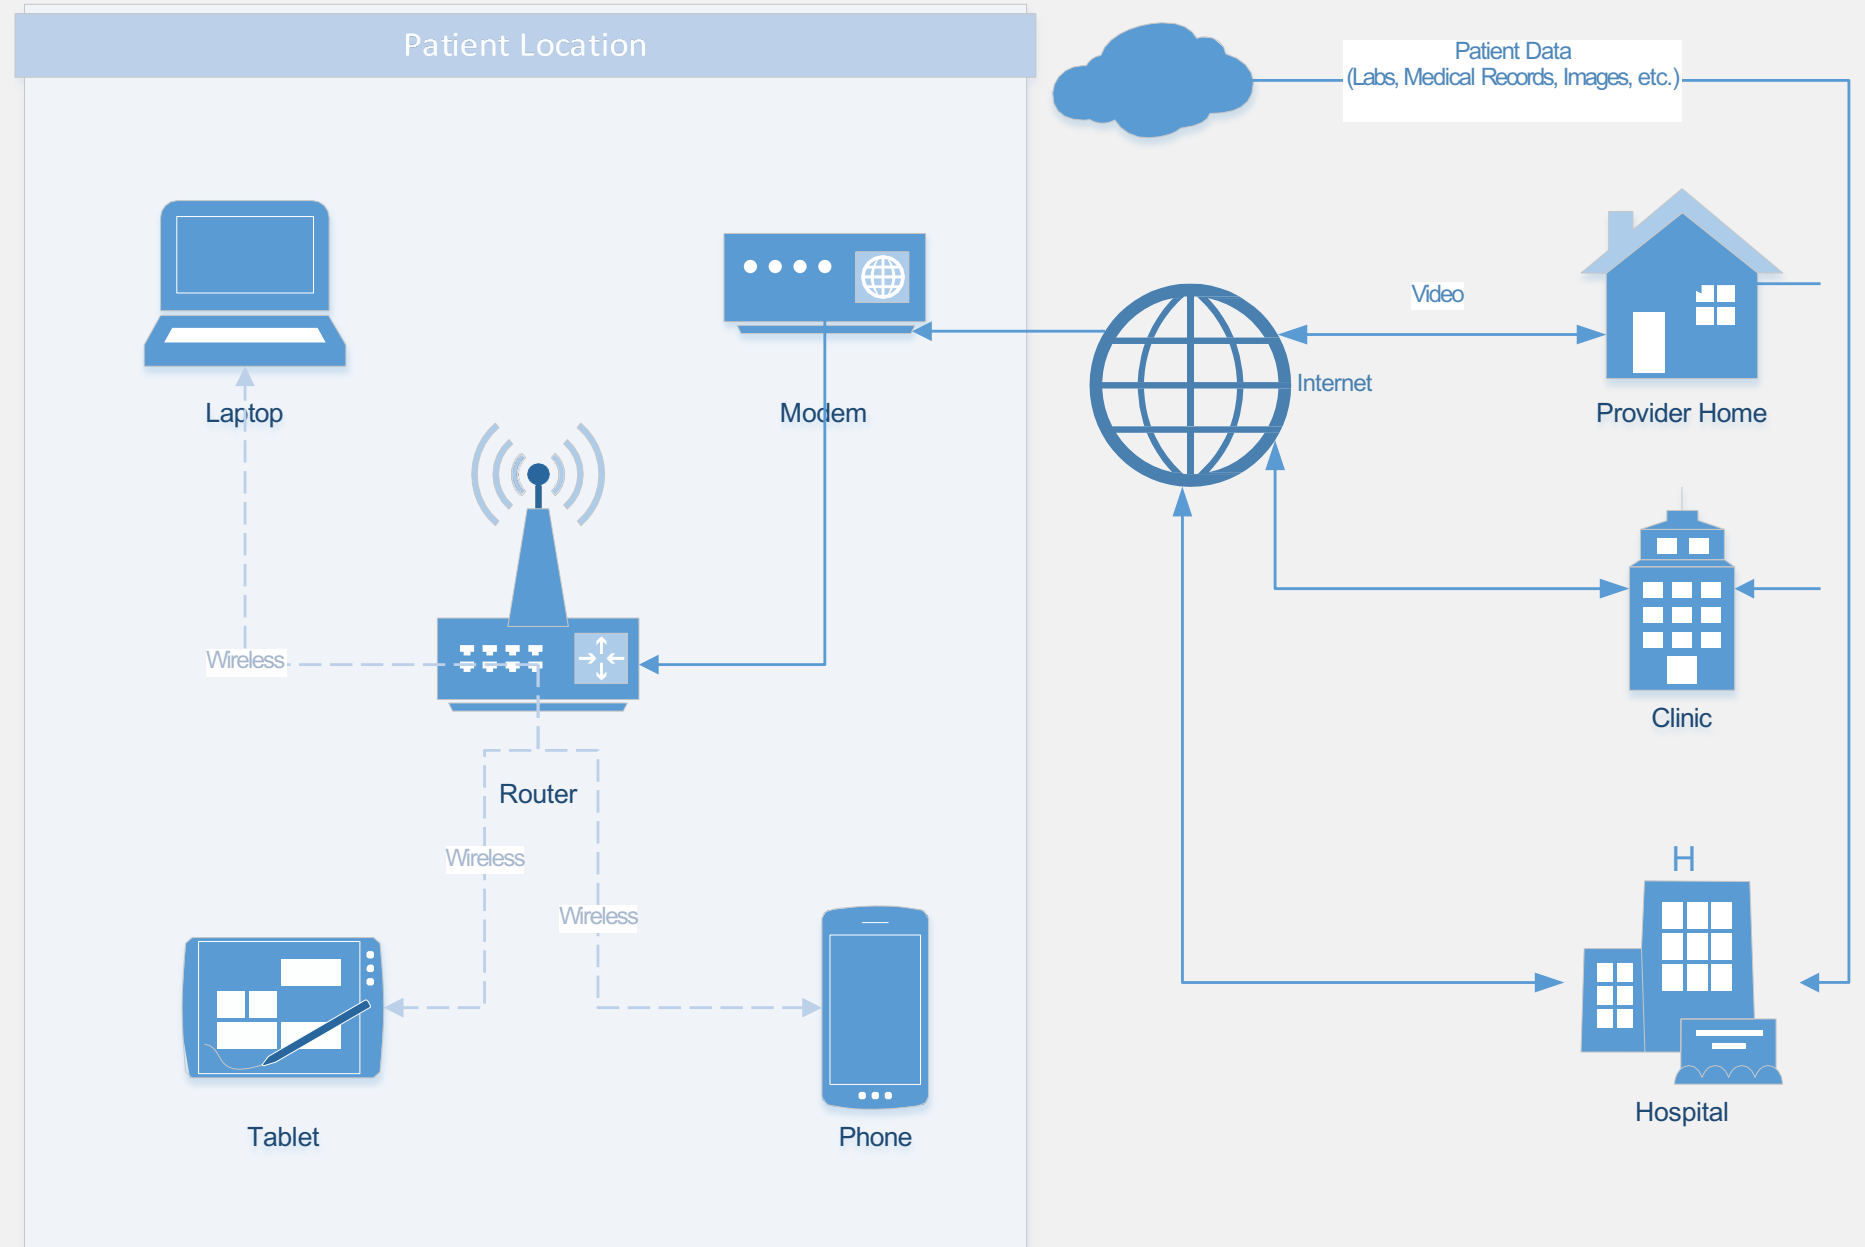

The way it was...

- Dedicated Endpoints
- On Premises Servers
- Integrated Hardware
- Custom Software
- Dedicated/Subsidized Circuits
- Staffed at both endpoints

The way it is...

- General endpoints
- Web-Based or Cloud Hosted solutions
- Peripherals with cloud storage
- Various Provider(s) locations

Importance of Broadband

Key Challenges:

- Residential vs Institutional Networks
- Challenges of Connecting to Personal Devices
 - Wireless Networks
 - Cellular Plans
 - Software updates/configurations
 - Digital Literacy
- Managing the Endpoint Experience

State of Broadband

Number of People in United States Who Don't Have Broadband Access

- FCC Data 2021 – 14.5 million
 - <https://docs.fcc.gov/public/attachments/FCC-21-18A1.pdf>
- Broadband Now 2023 – 42 million
 - <https://broadbandnow.com/research/fcc-broadband-overreporting-by-state>
- Microsoft 2020 – 120.4 million
 - <http://aka.ms/BroadbandMaps>

State of Broadband

Common Concerns:

- Rural and Tribal America lag behind in access to broadband
- Key Limiting Factors include
 - Accessibility to service
 - Cost
- Lack of digital access reinforces disparities

State of Broadband-Investment

- Affordable Connectivity Program (previously EBB)
 - Ended June 1, 2024
 - \$14 billion spent to reduce cost of broadband access for qualifying households
- Broadband Equity, Access, and Deployment (BEAD) Program
 - Provides \$42.45 billion for broadband expansion
 - Funding for each of the 56 Eligible Entities determined
 - Challenge process has concluded and final applications are being processed
- Digital Equity Act
 - \$2.75 billion in 3 grant programs
 - State Digital Equity Planning Grant
 - Digital Equity Capacity Grant
 - Digital Equity Competitive Grant

Measuring the Gap cont.

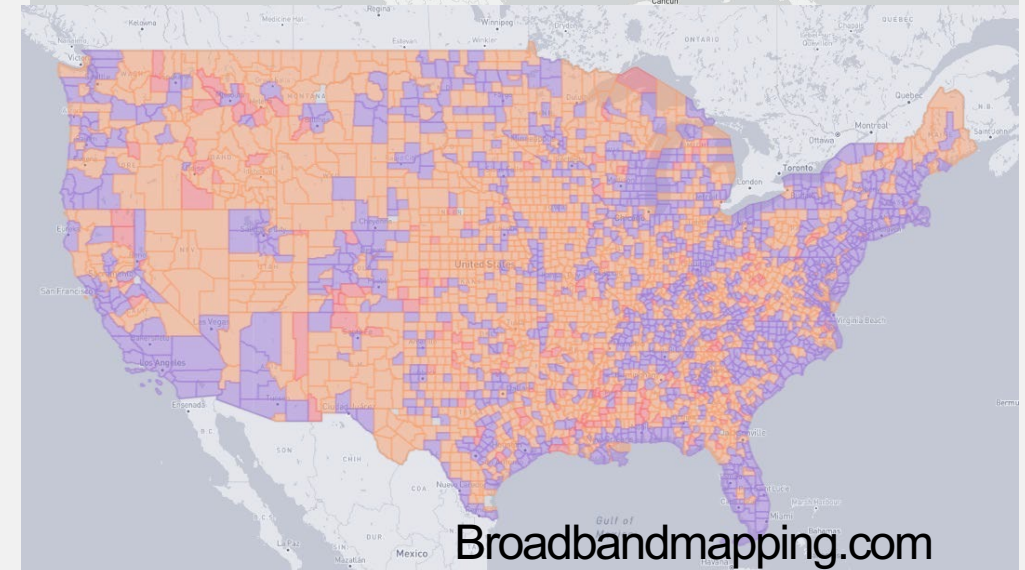

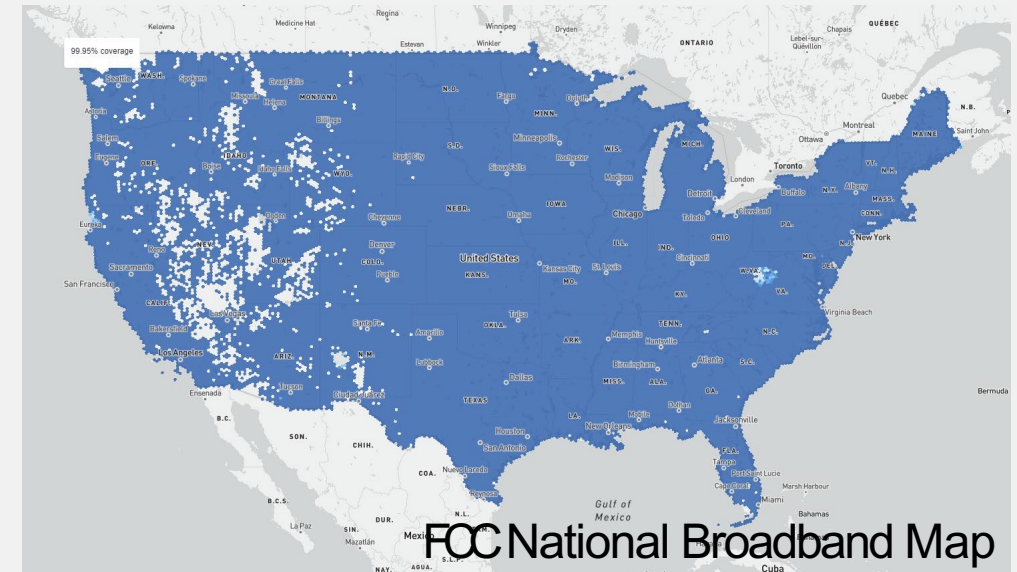

- Mapping Resources

- FCC Broadband Map

- <https://broadbandmap.fcc.gov/home>
 - Fabric Map- Locations that have or could have fixed internet services
 - Broadband Availability Map- Map of broadband services, if any, provided by ISPs on Fabric map locations

- Broadbandmapping.com

- <https://broadbandmapping.com/>
 - Uses public data sets to map speed test data to state, county, and tribal map locations.
 - Filterable by ISP, and timeframe

The Telehealth Broadband Pilot Program(TBPP)

Identified Partner Communities

Alaska Native
Tribal Health Consortium

Alaska:

- Aleutians West Borough
- Bristol Bay Borough
- Dillingham Census Area
- Nome Census Area
- North Slope Borough
- Northwest Arctic Borough

West Texas:

- Crosby County
- Fisher County
- Haskell County
- Jones County
- Lamb County
- Mitchell County

Texas Tech University

Central Michigan
University

Central Michigan:

- Gladwin County
- Manistee County
- Missaukee County
- Montmorency County
- Osceola County
- Oscoda County

Southern West Virginia:

- Calhoun County
- Clay County
- Jackson County
- Kanawha County
- Nicholas County
- Roane County
- Ritchie County

West Virginia Primary Care
Association

- Evaluation Partner
 - University of Arkansas Medical School - Rural Telehealth Evaluation Center (RTEC)
- Software Development Contractor
 - Exactly Labs

The Telehealth Broadband Pilot Program(TBPP)

**We think
internet is on
or off**

**In reality, it
flickers**

Speed Test Widget:

TTAC
TelehealthTechnology.org
National Telehealth Technology Assessment Resource Center

Internet Speed Test

The Telehealth Technology Assessment Center in partnership with the Office for the Advancement of Telehealth has developed a speed test widget to help you understand your internet connectivity. Using this handy test tool below you can find out how much broadband speed you have currently, and help us create a better picture of what connectivity looks like throughout the US.

Powered by **exactly**

Speed Test Your Results Map

Test your Internet speed

We'll ask you a few questions to better understand where and how you're connected so we can learn more about your current service.

I agree to the [Privacy Policy](#).

Our Next Webinar

The NCTRC Webinar Series

Occurs 3rd Thursday of every month.

Telehealth Topic: Heartland Telehealth Resource Center (HTRC)

Hosting TRC: Expanding Rural Access – Key Insights from Implementing Telehealth Access Points Across Oklahoma

Date: September 19, 2024

Times: 11 AM – 12 PM (PT)

***Registration information is available on the NCTRC website.**

Please Complete Our Survey

Your opinion of this webinar is valuable to us.

***Please participate in this brief perception survey
(will also open after webinar):***
